

**McCain Library and Archives
The University of Southern Mississippi**

Publication Fee Statement and Schedule

Publication of images of McCain Library and Archives materials is subject to approval, and fees may be charged for such use. "Publication" includes the following media: print (as in books, journals, theses, dissertations, etc.), electronic/digital/videotape, film, or microfilm. Permission to use images must be obtained in advance and in writing from McCain Library and Archives by completing the *Notification of Intent to Publish Photographic or Digital Images* form.

The fees listed below are for non-exclusive use of a single image unless otherwise indicated. They are assessed in addition to photo-duplication or digital reproduction costs and are to be paid in advance of publication. Only those images actually used in publication are subject to these fees. If a request covers more than one form of publication, then the fees are cumulative. Rights will not be granted in perpetuity and are limited to a period of five years from the date of publication.

Schedule of Fees
